

I am opposed to you weakening in ANY way New Jersey's Telephone Consumer Protection Act. I would think that the fact that two out of three residences have signed up for this program would send a pretty clear message that we do not want to be bothered by telemarketers. I would like to know why "John and Jane Public's" opinions and issues are less important than a business. We pay for the privilege of having phones in our homes, we should be able to have some control over who we want to call us.
